# THE NINTENDO 64 CONTROLLER

## CONTROL STICK FUNCTION

The Nintendo® 64 Controller contains a Control Stick that uses an analog system to read the angles and directions of its movement. This allows subtle control that is not possible using the conventional Control Pad.

When turning the Control Deck Power ON, do not move the Control Stick from its neutral position on the controller.

If the Control Stick is held at an angled position (as shown in the top picture, left) when the power is turned ON, this position will be set as neutral. This will cause games using the Control Stick to operate incorrectly.

To reset the neutral position once the game has started, let go of the Control Stick so it can return to its center position (see picture, left), then press START while holding the L and R Buttons.

The Control Stick is a precision instrument; make sure not to spill liquids or place any foreign objects into it.

**Warning:** Never insert or remove a Game Pak when the power is on!

1. Make sure the power is OFF on your Nintendo® 64 system and that your controller is firmly locked in place at the front of the game system.
2. Insert the **DESTRUCTION DERBY™ 64** Game Pak into the Game Pak slot on your Nintendo 64.
3. Press down firmly to lock the Game Pak into place.
4. Turn the power switch ON.
5. At the Title Screen, press START when prompted to do so.

# SMASHING GOOD FUN

*In driving, nothing beats the pure rush of smashing into another car. Herein lies the premise behind DESTRUCTION DERBY™ 64. No weapons except the vehicle itself. No protection from the onslaught save lightning-fast reflexes and the chrome and rubber that comprise reinforced fenders and bumpers. Rooted in the classic demolition meets that are as much a part of Americana as daredevil barnstormers and circus sideshows, the modern-day jousting that is Destruction Derby takes place in arenas, backroads, and city streets that lie just around the corner in Everytown, U.S.A.*

*Now, from the comfort and safety offered by the technology of cartridges and controllers, take part in this, the most original of extreme sports.*

*Meet the challenge of DESTRUCTION DERBY™ 64.*

*Take no prisoners. Enjoy the ride.*

## LEGAL DISCLAIMER

*DESTRUCTION DERBY™ 64 is fun because it's not real. Please do try to remember that this video game is meant for entertainment purposes only. Do not imitate any of the actions depicted in the game in real life. If you do, you are an idiot and will suffer from a lifetime of chronic pain and high auto insurance deductibles. Arrest and the risk of injuring others also come as part of the deal.*

*We repeat: Do not try any of this at home with your own car or one belonging to someone else. It is extremely dangerous and illegal.*

# CHAMPIONSHIP STRATEGY – ADVICE FOR HIGH POINT COLLISIONS

Before each race, an arena  
dash, **DESTRUCTION DASH**™ 64  
will provide a Race Rules  
screen reminding you how  
scoring is kept. For races,  
points are allotted for both the  
number of checkpoints reached  
and the number of cars  
smashed. Gain extra time by  
scoring points and reaching checkpoints in a  
timely manner. Earn 10 seconds for every  
30 collision points scored. The time bonus  
gained for reaching each checkpoint will vary.  
At the bottom of the Race Rules screen, the  
number of crowd cheer points needed – and  
how high you must place to get them – will  
be listed.

## END RACE SCREENS

After races, check the detailed score on the following screens:

### RACE RESULTS

## BOMB TAG

Hot potato for the insane! Score points by holding onto a ticking time bomb. Gain 3 points for every second you possess this explosive baggage. Don't get caught with the bomb when time runs out. Pass off the bomb to an opponent by crashing into the opposition's car. Get 50 points for surviving each round. There are 3 rounds in each Bomb Tag game.

## CAPTURE THE FLAG

Got a friend? How lucky! Got three friends? All the better! Exclusively for two or four players, Capture the Flag mode splits drivers into teams in a race against time and their opponents. Partners score points by grabbing the opposition's flag and bringing it back to their own base. Counterattack points can also be scored by blocking an opponent's run for home and returning the captured flag back to its starting point. Earn 10 points for each flag successfully captured. Score 5 points for each block.

## DESTRUCTION RACE

A deathrace built for two! Choose a track, then hit the road in this head-to-head fight to the finish.
